25YEAR MECHANICAL WARRANTY

530 Series Key in Knob Locksets

The 530 series is designed as a non-handed, easy-to-install lockset. This high quality range is suitable for residential and semi-commercial applications including office partitioning.

Features and Specifications

Cylinder

- 5 pin tumbler mechanism
- Brass cylinder and brass barrel

Keying

Standard Keying

- Supplied individually keyed with two keys per lock
- 78,000 key combinations
- Key blank KB2015P

Restricted Special Keying
Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.

25YEAR MECHANICAL WARRANTY

Enable® Series Key in Lever Locksets

The new AS1428.1 Lockwood compliant leverset features a right angle return of 20mm length and good clearance from the door to prevent fingers slipping off during use. A push button on the interior side lever of the Exterior and Privacy Sets allows a single action egress function. This leverset is designed to enable positive grip and is suitable for door thickness of 35mm to 45mm.

Door Clearance

To ensure correct functioning of the lockset, the clearance between the door and frame should be at least 3mm.

Features and Specifications

Cylinder

- Available in Exterior, Privacy, Passage, Single Dummy, Storeroom, Classroom, Glass Door and Lever/Knob Combination sets
- Supplied with a standard "PD" type cylinder keyed to C4 profile with two keys
- Suitable for residential and commercial applications

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.
