# SMARTair™ Standalone Management Tools

## Function

SMARTair™ Standalone is the basic version of SMARTair™ and manages access to a single door. Requiring no software or programming device, it relies on a friendly programming card to authorize or cancel electronic access cards and/or PINs.

## The Standalone Management Tools include:

- Programming Card - used to program the SMARTair™ escutcheon, wall reader or knob cylinder
- Emergency cable - used to allow the opening of a door when the batteries are flat

## Programming Card features:

- Add credential
- Cancel credential
- Cancel all credentials
- Passage mode control
- Shadow Card (to delete a lost credential)

## Programming Card options:

- With Shadow Card feature
- Without Shadow Card features

## Emergency Cable features:

- Used to energize the lock in order to open the door when the escutcheon's batteries are empty
- Requires 3 x AAA batteries
