Yale Smart Safe
Installation Instructions
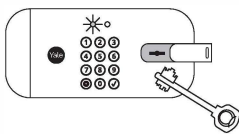

1 Download the Yale Home App

Create an account

Download on the App Store

GET IT ON Google Play

**Yale Home**

2 Unlock Safe Using Key

Open door and leave open until setup is complete.

Tip: When key is used to unlock, it must be used to lock.

3 Insert Batteries

Open the battery compartment and insert 4 AA batteries. Reinstall the cover.

Connect WiFi Bridge (sold separately)

x4 Mounting Hardware

Key

User manual

x4 AA Batteries (Alkaline only)

Needed for Optional Installation

Drill with 3/8" Drill Bit

Pencil

Phillips #2 Screwdriver

## 4 Add Safe to the Yale Home App

Set up Smart Safe

Tap "Set up a device" from the app menu. When asked, scan the Yale QR code on the inside of your safe door.
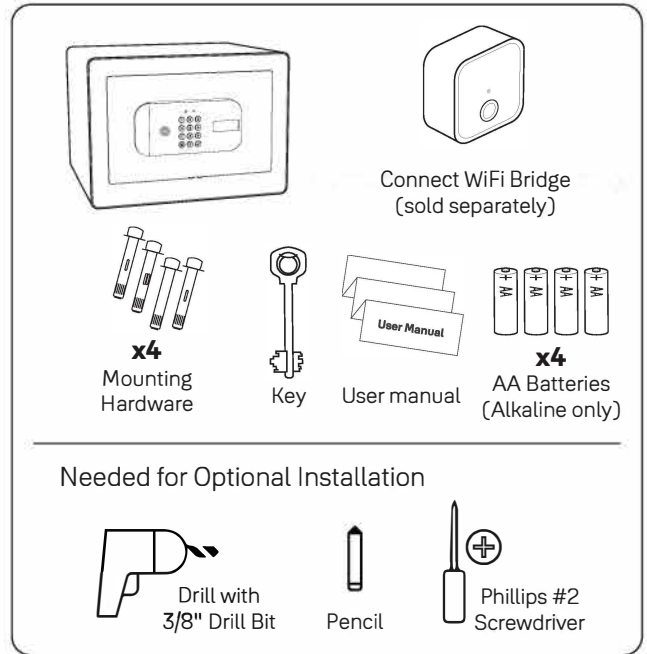

Tip: Once batteries are inserted, you have 5 minutes to complete this step. If your app doesn't find the safe, press and hold (5 secs) the reset button on the inside of the safe door until a buzzer is heard. After the buzzer, remove one of the batteries and re-insert it. Repeat step 4.

Set up with Connect WiFi Bridge*

Note serial number located on back of Bridge. Plug Connect WiFi Bridge into an INDOOR outlet within 3 meters of the Smart Safe.

Tip: For best connectivity, make sure that the Connect WiFi Bridge is in the line of sight of the front of the safe.
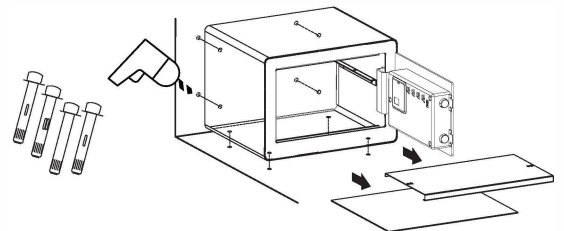

*Connect WiFi Bridge sold separately

5 Create Entry Codes

Once added to the Yale Home App, you can create and delete entry codes or share app access by tapping the Guest icon in the bottom menu.

## O optional Mount Safe For Added Security (Optional)

There are 8 mounting hole locations on the Smart Safe. Use included mounting template for guidance to secure the safe to the wall, shelf or floor.

Inside

Battery Compartment
Key Hooks
LED
Reset Button* (Factory Settings)

* When safe is paired to app, Factory Reset must be done from app. During a factory reset the safe will be unlocked.

Locking Safe

Close Safe Door
Press any key to lock safe

Unlocking Safe

Enter valid 4-6 digit code
Press ✓

Settings Definitions

Setting	Default	Definition
Vacation Mode	Off	While in Vacation Mode, the safe will not open even when a valid Entry Code is entered. This setting can be changed from the Yale Home App.
Inside Light	On This feature cannot be turned off.	The inside light will automatically turn on and stay on for 10 seconds when the safe door is opened.
One Touch Locking	On This setting cannot be turned off.	Touching any key on keypad will lock the safe.
Sound	On	The sound setting for entry code verification can be set from the Yale Home App.

Tip: If the safe is to be used without pairing to the Yale Home App, please scan the QR code below and refer to the 'Can I use the Smart Safe as a standalone setup?' section in the Product Support section on our webpage for details.

Warning: Changes or modifications to this device, not expressly approved by Yale Home could void the user's authority to operate the equipment.
